Our Story.

It all began in 1995 with the unique vision and energetic passion of one man’s dream – to develop a home improvement company with a moral compass like no other.

He would offer only the finest quality products, professionally installed with distinction and integrity – and do so at the lowest possible price. Quite simply, the best for less.

He set out to break the mold and change the remodeling industry. And did he ever.

Today, we are America’s largest replacement window company. We are proud to bring you beautiful, world-class quality products from industry-leading manufacturers of windows, siding and other professional-grade exterior building materials. Our manufacturing partners demonstrate a proven record for superior craftsmanship, enduring quality and genuine value. Their professionalism and expertise are further assurance you have made an excellent selection for your home.

We also take pride in our company wide commitment to customer happiness. From start to finish, our knowledgeable and friendly team is ready to serve you with the exceptional customer care and attention to detail you can expect from the Window World brand.

Our Promise.

We do our best on every job, every day, because at Window World we know that a great job today will bring referrals from family, friends and neighbors tomorrow.

Our promise to you is straightforward: superior products, professional installation, guaranteed low pricing — simply the best for less.

Welcome to Window World.

Tammy Whitworth
CEO, Window World
When remodeling your home, be sure to consider the impact you can make with a new entry door. Nothing makes a great first impression on your neighbors, friends, and family like an attractive entryway—it is truly the focal point of your home’s exterior. Remodeling Magazine’s 2011-12 “Cost vs. Value” report ranks entry door replacement as one of the top remodeling projects in terms of cost vs. return on investment.

Window World has partnered with Therma-Tru® to offer you a wide selection of the most popular doors available today with some incredible added features. Year after year building professionals rank the Therma-Tru® brand as the one they use most and recognize Window World doors offer beauty, durability, security, and are tested to the industry’s highest standards. Our broad offering of door styles combined with a wide array of paint, stain, glass and hardware options ensures that every homeowner will find an entry door to satisfy their own personal style.

Like all Window World products, our entry doors provide unsurpassed quality and value and are backed by an industry-leading warranty.

The Window World Difference

1. Therma-Tru®
2. Tru-Defense®
4. Dura-Frame Rot Proof Jamb and Brickmould STANDARD.
5. Ball Bearing Hinge STANDARD.
6. Hand rubbed stain application on factory stained unit with sprayed clear coat for maximum beauty.
7. Factory sprayed paint finishes in a variety of standard colors to match your décor.
8. Clad Jamb options for maximum protection from the elements.
9. Adjustable Security Strike Plate** wraps around the door jamb and withstands up to three times the force of standard strike plates to help protect your home from forced entry.

* See representative for details on 5 year warranty.
** Not available on certain configurations.
Ultimate Protection from the Elements

Whether it’s the front entry or patio, a Tru-Defense® door system couples the door, sidelites and a series of specific components for heightened weather protection, safety, security and energy efficiency. Key components are:

- Foam-filled compression weatherstrip that remains flexible and helps seal the entryway against moisture and air infiltration.
- An exclusive seven-shape corner seal pad that creates an air pocket to help prevent air and water infiltration.
- Bottom sweeps that feature dual bulbs with dual fins that sit tight to the sill to help prevent air and water infiltration (inswing systems only).
- Profile designed adjustable composite sills that deliver a tighter fit with the door to help eliminate the destructive effects of water. Insings use a composite adjustable sill. Outsings use a fixed composite sill.
- Polyurethane foam core provides 4X the insulation of a wood door*
- Composite Top and Bottom Rails
- Optional Rain Deflector
- 5/8" or 7/8" aluminum astragals and their dual-durometer triple seal boot design that secures the door tightly to the sill, providing a superior seal between the door and the sill. For double door applications only.

Cash reimbursement amount doubles with the use of a Therma-Tru sill pan.

Cash reimbursement warranty rider up to $1,500* if water damage occurs due to a failure of the Tru-Defense door system.

Suitable for single and French door systems, optional multi-point locking systems add greater security and stability for enhanced door system performance. Stainless steel construction resists rust and corrosion.

Lock systems on Therma-Tru fiberglass entry doors also qualify as Tru-Defense door systems. Use our multi-point locking system for greater performance.

Note: Multi-point locking systems are highly recommended for 8’0” and double door applications.

*The Rider does not warrant workmanship of the builder, remodeler, distributor, dealer or other person who assembles or installs the Tru-Defense door system, nor any damages caused by improper handling, assembly or installation.

* As compared to wood.
Beautiful Options to Satisfy Every Homeowner

Classic-Craft® Door Systems
Our top-of-the-line product, the Classic-Craft® family of doors, features solid wood edges, rich embossment details and wider center panels to mimic the look of custom wood doors. Classic-Craft has premium hard wood graining brought to life by our patented AccuGrain® technology. The doors are constructed with a thicker fiberglass skin for better performance and durability and have composite top and bottom rails for increased moisture resistance. Available in 3'0" doors only.

Fiber-Classic® Door Systems
The door that started the fiberglass revolution has been refreshed with new high-definition panel embossments. Fiber-Classic continues to pair the durability and strength of fiberglass with the traditional styling of oak or mahogany. Beautiful doors at an affordable price.

Smooth-Star® Door Systems
Smooth-Star fiberglass doors feature a crisp profile to please homeowners looking for more modern style entryways. These doors have a smooth ready-to-paint finish and are an excellent alternative to traditional steel entry doors.

Profiles™ Door Systems
Coupling strength with style, Profiles steel doors are designed as a versatile yet affordable option to match many architectural styles.
Glass Privacy Rating Scale

Larger number in the scale indicates the privacy rating

Arcadia™

Clear bevels, seeded glass, gray artique glass, clear glass and caming.
Available in Classic-Craft® American Style, see page 12.

Augustine®
GLASS PRIVACY RATING 10
Granite glass and authentic round wrought iron.
Available in Classic-Craft® Rustic, see page 14.
Make a grand entrance with the Classic-Craft Mahogany collection. Elegant, sophisticated and crafted with AccuGrain® Technology, these beautiful fiberglass entryways capture every intricacy of authentic Honduran mahogany to the last detail. The grain is so true to life, you can't tell it from real wood — but it won't split, crack or rot like wood.

**options**

A  brass caming  
C  brushed nickel caming  
D  black nickel caming  
B-1D  bronze water glass with black nickel caming
Bring home the warmth of rich, natural oak grain with our Classic-Craft Oak Collection entryways. The look and feel are so true to life that Classic-Craft fiberglass rivals fine hardwood doors — but it won’t split, crack or rot like wood.

Add an optional 4- or 16-block dentil shelf for a more historically correct door. Both dentil shelves have the same detailed graining and durable fiberglass as the Classic-Craft® American Style Collection™ door.
Inspired by the Craftsman movement of the early 1900's with purity of design, the American Style Collection takes its cue from Craftsman, Bungalow and Cottage home designs, complementing their low-pitched roofs, wide eaves, exposed rafters and large porches. The grain is so true to life, you can't tell it from real wood, but it won't split, crack or rot like real wood.
clavos and strap hinges
Decorative hardware in an authentic hand-hewn black finish look.
Includes round and pyramid clavos available in 3 sizes and 18" long strap hinges.
Let yourself be captivated by the old world charm of Classic-Craft Rustic Collection fiberglass entryways. The beauty is in the details. The Rustic Collection captures the character of rustic woods with style and casual elegance, but they won’t split, crack or rot like real wood.
**Glass Options**

- Double Doors and Patio Doors: 3/8" Narrower in width
One Purchase —
A Lifetime of Beauty
and Performance

When you purchase a Window World fiberglass door by Therma-Tru® you can feel confident that its beauty will endure the test of time. That’s because fiberglass won’t rot, warp, twist or bow like wood, or dent or rust like steel. We’re experts in what fiberglass can do for any entryway – from appearance, safety, security and durability to energy efficiency. In fact, we are so confident that we stand behind each one with a limited lifetime warranty. That means you can look forward to years of worry-free performance with a properly maintained Therma-Tru® door system from Window World.
